Ok great, I will send it out today then and you should hopefully receive it by next week at latest (it may take a couple of days for it to get into the hands of USPS). Sorry for the delay, let me know if you don't get it.

Yes, a CD will work fine. Thanks!

Hi Heather,

I've been trying to send the photos that I took during our follow-up inspection to you via email but it appears that I am not able to send large files to parties outside of the EPA/parties using a different server. Can you let me know if you do or do not have a CD drive? I am currently planning on sending you a CD with the photos burned onto it, but if you don't have a CD drive on your computer I am

going to have to ask you to send me a USB which I can put the photos on and then send back to you.

Thanks

Marie St. Peter
